PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring Software Developer with a strong foundation in programming, web development, databases and software engineering principles. Hands-on experience with Python, Java, JavaScript, React.js, Django, SQL and REST APIs through internship work and academic projects. MCA student (BCA graduate) with a problem-solving mindset, eager to join a software development team, write clean and maintainable code, and grow through real-world projects.

EDUCATION

Master of Computer Application — Community Institute of Management Studies, Bengaluru | Dec 2024 – Ongoing

Bachelor of Computer Application — Bharath Education Society, Jayanagar, Bengaluru | 2020 – 2023

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript (ES6+), SQL
Web Technologies: HTML5, CSS3, React.js, Bootstrap
Backend & APIs: Django, REST API Development, RESTful API Integration
Databases: SQL, MongoDB
Soft Skills: Problem Solving

INTERNSHIP

React Developer Intern — BDreamz Global Solutions Private Limited, Bangalore | Mar 2026 – Sep 2026

- Developed responsive, user-friendly web interfaces using React.js, JavaScript, HTML5, CSS3 and Bootstrap.
- Built reusable React components and managed application state using hooks such as useState and useEffect.
- Integrated the frontend with REST APIs to fetch, display and update data, handling loading and error states.
- Implemented client-side routing, forms and validation to create smooth, multi-page user flows.
- Debugged UI issues, tested across browsers and devices, and improved page performance.

Sample Superstore Sales Analysis — SQL (Internship Project)

- Analyzed the Superstore dataset to identify sales, profit, order and customer trends.
- Wrote queries using JOIN, GROUP BY, HAVING, CASE, subqueries, aggregate and window functions to extract meaningful insights.
- Compared sales and profit performance across regions, categories, sub-categories and customer segments.

PROJECTS

Certihire — Freelancing Website — Python, Django, Bootstrap, JavaScript

- Developed a fully functional online freelancing platform where users can create gigs and place orders.
- Implemented user authentication and database integration to manage gigs and order history.
- Built a responsive frontend using Bootstrap and JavaScript for a smooth experience across devices.

The Grand Reservations — Hotel & Trip Booking — Python, Django, Razorpay

- Built a hotel and trip booking web app with user login, booking and online payment features.
- Created an admin dashboard to manage rooms, trips and bookings.
- Integrated Razorpay payments and designed a responsive UI with animations for a smooth user experience.

CERTIFICATIONS

- Python Full Stack Development — Besant Technologies, Bengaluru
- IEEE AI and ML Conference

LANGUAGES KNOWN

English, Kannada, Hindi, Tamil
